CAREER OBJECTIVE

Aspiring Software Engineer with hands-on experience in **Python, Django, SQL, and full-stack web development**, seeking to contribute to scalable, data-driven applications while continuously improving technical and problem-solving skills.

SKILLS

- **Programming & CS Fundamentals:** Python, Data Structures, OOP
- **Web Technologies:** HTML, CSS, JavaScript, Django
- **Databases:** MySQL, Oracle, SQL Queries
- **Core Concepts:** Software Development Lifecycle (SDLC), REST API Integration, Debugging
- **Tools:** GitHub, VS Code, MS Excel
- **Soft Skills:** Communication, Teamwork, Analytical Thinking, Problem-Solving, Time Management

PROJECTS

Travel Explorer Web Application – **June 2025 – August 2025** | [GitHub](#) | [Netlify](#)

- Built a travel discovery application using real-time weather and image APIs to enhance user engagement by 35%.
- Designed a responsive UI, implemented search/filter features, and optimized user flow, enhancing usability by 40%.
- Performed debugging, testing, and validation to ensure application stability and performance.
- Deployed on Netlify and maintained full version control on GitHub.

Job Portal Web Application – **December 2024 – February 2025** | [GitHub](#)

- Designed and implemented a structured end-to-end system to manage job postings, applications, and user data with a strong focus on data integrity and reliability.
- Developed backend workflows and APIs to handle high-volume structured data, ensuring accuracy, consistency, and secure operations.
- Ensured data validation, consistency checks, and secure database operations, improving reliability by 30%.
- Applied logical problem-solving to debug issues and enhance overall system performance.

INTERNSHIP

Python Full Stack Development Trainee – **June 2024 – February 2025**

- Trained in Python full-stack development using Django, HTML, CSS, basic JavaScript, and SQL with hands-on project experience.
- Worked on CRUD operations, user authentication, database integration, and frontend–backend connectivity.
- Gained exposure to responsive UI development, REST APIs, Git version control, and deployment.

AI & Cloud Internship – AICTE Edunet – **June 2025 – August 2025**

- Performed structured dataset preprocessing, feature validation, and quality checks.
- Built fault classification models, strengthening understanding of **pattern recognition and data-driven diagnostics**.
- Gained exposure to cloud-based engineering tools and disciplined project execution.

EDUCATION

Bachelor of Technology
St. Peter's Engineering College, Hyderabad

June 2021 – March 2024
CGPA: 9.0

Diploma
Holy Mary Institute of Technology and Science, Hyderabad

April 2018 – March 2021
CGPA: 9.11
